

**CLOUDPROTECT**  
secure backup in the cloud

# CLOUDPROTECT 30-DAY FREE TRIAL

1

Register for a free 30-day trial using the CloudProtect [website](#).

2

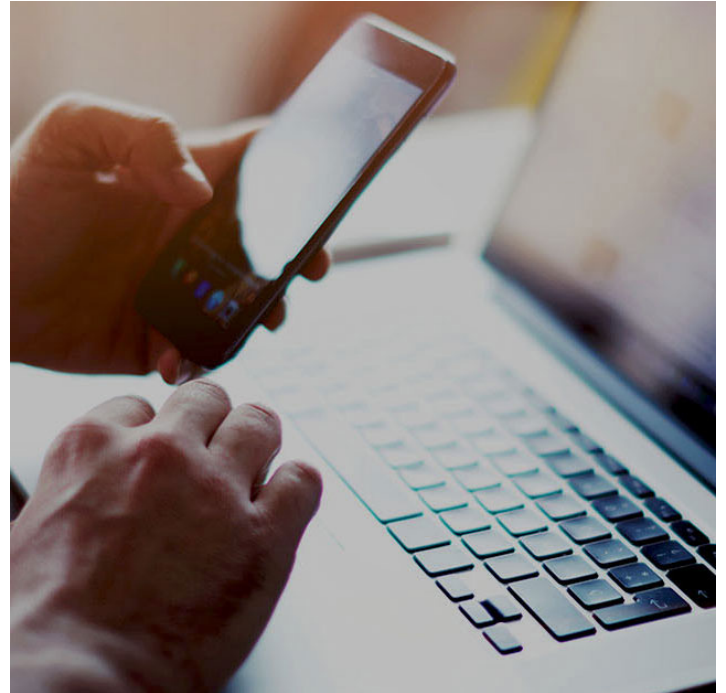

If you need data seeding done, this service is offered for a fee, please request a quote using the [contact form](#).

3

Configure the devices and data to be backed up using a web-based console for end-users and system administrators.

4

Schedule the backup frequency

## WHAT DO YOU GET?

- Source-side deduplication so only new and changed data is backed up, reducing bandwidth requirements
- Secure access to encrypted data
- Automated alerts and reporting
- Secure file sharing
- Privacy of data
- 24/7 access to your backed up data via web console or mobile app
- Data retention for a 30-day period

## HOW DO YOU ACTIVATE YOUR ACCOUNT?

If you are satisfied after the trial period, submit a full activation request to [sales@cloudprotect.co.za](mailto:sales@cloudprotect.co.za) or use the [contact form](#) on the CloudProtect website.
